FT=Full-time,

PT=Parttime

IP=In Process: Students from the cohort listed have yet to graduate from the cohort year listed.

Programs are only required to provide data on the past 9 years/cohort or since the program was initially accredited, whichever is shorter.

* Graduation Rate is the program's Advertised Length of Completion which is how long the program is designed to complete as written. Note: this is the percentage of students who completed the program in the **minimum** length of time, as advertised. Students can (and do) encounter life circumstances that prevent completing the program in this minimum period, however many still go on to complete the program in the **maximum** completion time (7 years). These students are not included in this percent.

** Job Placement Rate is the percentage of graduates from the cohort year that are employed utilizing skills learned in the COAMFTE accredited program.

*** Licensure rate is the percentage of graduates from the cohort year that have achieved ANY level of MFT licensure.

For Master's programs only, COAMFTE has established a benchmark of 70% licensure rate for each cohort.

[^]44% of the 9 admitted students graduated in the minimum-3 year advertised time due to medical issues, loss of employment, and delay in accruing required clinical client contact hours. However, a total of 8 students (89%) of this class went on to complete and graduate from the program within the maximum Advertised Time

[~]The 2019-2020 class year's completion rate in the Minimum Advertised was severely impacted by the COVID-19 pandemic. Several students were forced to stop attending due to family responsibilities and circumstances. Others reduced their schedule, and/or returned from a leave of absence following the pandemic and continue working toward their degree.

⁺Students still attending and moving toward completion within maximum completion time.
